Sending a Medical Document

There are **two scenarios** where a health care practitioner may send a medical document by secure fax and have it recognized as an original:

- If your patient chooses to access cannabis for medical purposes via a federally-licensed seller, this medical document can be submitted from your office to the licensed seller by secure fax; or
- If Health Canada contacts your office requesting a medical document as part of an application received from your patient for the production or possession of cannabis for medical purposes.

If you choose to submit the medical document by secure fax under one of the above scenarios, please initial the appropriate statement below to acknowledge agreement. **If these scenarios do not apply, please leave this section blank and simply provide the original medical document to your patient.**

Please select **only one** of the following options **if** sending the medical document by secure fax:

By initialing this box, I, the supporting health care practitioner, have been asked by my patient to send this medical document **directly to a licensed seller**. In sending it by fax, I acknowledge that the faxed medical document shall constitute the original medical document.

By initialing this box, I, the supporting health care practitioner, have **been asked by Health Canada to submit to them directly** a new medical document as part of my patient's application for the production or possession of cannabis for medical purposes. In sending it by fax, I acknowledge that the faxed medical document shall constitute the original medical document.
